CUSTOMER FAX BACK FOR SPRINGBOARD RECOVER KIT

Model G-055

IMPORTANT INFORMATION! Look this over carefully! Double check all measurements! This is a custom order and cannot be changed, revised or canceled once placed into production. Please write all measurements in inches.

NOTE: There are two common types of springboard covers. Either a rectangular shape or a rectangle with notches in the corners. Please put your measurements on the correct shape below. The cover will be hemmed and cut to this exact measurement so if the cover tucks under the edge of the springboard (like an AAI Stratum Board) add that to the measurements below. If the cover is just a rectangular piece of material that covers only the top surface of the board then only give that measurement below.
