

PRODUCT INFORMATION / CARE TIPS / HAZARD ALERT FOR CARPETED FOAM FLOOR ROLLS

READ THIS DOCUMENT AND ALL OTHER ACCOMPANYING PRODUCT DOCUMENTATION THOROUGHLY BEFORE INSTALLING, USING OR PERMITTING USE OF THIS EQUIPMENT. REQUIRE ALL PERSONS INTENDING TO USE THIS EQUIPMENT.

IMPORTANT - CUT PRODUCT AT YOUR OWN RISK!

Carpet Bonded Foam is covered by a limited warranty, however, if you alter or cut this product down from the original size to fit a room or special area the warranty is **VOID**. Manufacturer will not honor the replacement if product is altered in any way.

OTHER TIPS...

1. Prevent tracking from any outside surface onto your carpet bonded foam.
 - a. Position doormat style mats around the floor and have all participants wipe their feet before walking on the floor.
 - b. Do not use street shoes on the floor. Shoes that are worn outside are still to be considered street shoes. Having shoes that are only used on the floor will do the most in keeping your floor clean.
2. Hot water extraction (steam cleaning) is a very good way to maintain the appearance and hygiene of the carpet bonded foam. Regular vacuuming is also helpful.
 - a. DO NOT use soap/chemicals in the hot water extraction process. If all the soap is not removed, your floor will feel sticky and the remaining soap will attract more dirt and grime.
 - b. The foam on the underside of the carpet bonded foam will not absorb water like the carpet pad in homes/offices.
 - c. Since the water will not soak through the carpet into the foam, more water may be used. Please note, if you have foam floor rolls with slitted backs, the water will leak through the seams.
 - d. Be sure to vacuum the water out of the carpet. Place several fans to blow air across the floor.
 - e. Be careful not to get water on the gym floor under your mats. It is a good idea to roll up the mats to inspect for water.
3. Sanitizing the mat surface.
 - a. Check with your athletic department to see what they use in cleaning the training room tables and sanitizing.
 - b. City health departments are recommending a 1 to 100 part solution of bleach to water for killing germs.
 - c. A bleach solution of 1 to 100 will NOT harm or discolor the carpet. The mat fastener however will be discolored, so it should all be removed before cleaning.
 - d. The bleach cleaning may be used in conjunction with the hot water extraction. An extra rinsing might be required to remove the bleach smell.
 - e. Use caution as the bleach will ruin most clothing it comes into contact with.

IMPORTANT CONSUMER PRODUCT HAZARD WARNING — PLEASE READ!

A possibility of serious injury, including paralysis or death, is inherent in any activity involving motion or height. Equipment with which this notice is included is intended for use only by properly trained, qualified persons under supervised conditions. Use without proper supervision is dangerous and should not be undertaken or permitted. Know your limitations as well as the limitations of your equipment. Consult a qualified instructor before attempting any new activity or skill. This equipment must be used with proper mats, spotting equipment and qualified spotters for each activity or skill. Use this equipment only for its intended purpose. Do not modify equipment in any way. Inspect each component for damage, loose fittings or signs of wear before each use. Do not use if you have any concern as to the condition of this equipment. Test unit for stability prior to each use. Do not use if you have any concern about the stability, condition or suitability of this equipment. Inspect warning labels and replace when marred or damaged. Before each subsequent use, re-check equipment stability and settings.
