SB-501, SB-502, SB-503 STALL BARS-PAGE 1 OF 2

READ THIS DOCUMENT AND ALL OTHER ACCOMPANYING PRODUCT DOCUMENTATION THOROUGHLY BEFORE INSTALLING, USING OR PERMITTING USE OF THIS EQUIPMENT. REQUIRE ALL PERSONS INTENDING TO USE THIS EQUIPMENT, AS WELL AS THOSE INSTRUCTING OR COACHING USERS, ASSISTING USERS AND/OR SPOTTING USERS TO READ THIS DOCUMENT THOROUGHLY BEFORE YOU AUTHORIZE EQUIPMENT TO BE UTILIZED FOR ANY PURPOSE.

IMPORTANT! ATTACH STALL BARS TO MASONRY OR CONCRETE WALL ONLY!

REQUIRED TOOLS: Level, power drill, 5/8" x 5" masonry bit & socket set.
Proper installation requires a two-person team.

Parts List (for each single unit):

1. One single unit 8' high x 34" wide
2. Four 4" x 3/8" lag screws
3. Four 3/8" lag screw anchors
4. Four 3/8" ID Washers
5. Two 3" deck screws are included with each additional unit for attaching multiple units to each other.

INSTALLATION

1. Have one person hold unit at desired wall position making certain sides are vertically true. Shim legs if floor is not level. Accurately mark all four mounting holes. Remove stall bar from wall. (Note: If installing several units side-by-side, repeat process for each stall bar unit.)
2. Using 5/8" masonry bit, drill all holes to a minimum depth of 3" to ensure lag screws will be flush against washers when installation is complete.
3. Clean debris from holes using bulb or vacuum, then place anchors into holes open end facing outwards.

TOP

BOTTOM

If installing single unit only, jump to Step 5.

If installing and connecting several units to each other continue to Step 4.

IMPORTANT CONSUMER PRODUCT HAZARD WARNING — PLEASE READ!

A possibility of serious injury, including paralysis or death, is inherent in any activity involving motion or height. Equipment with which this notice is included is intended for use only by properly trained, qualified persons under supervised conditions. Use without proper supervision is dangerous and should not be undertaken or permitted. Know your limitations as well as the limitations of your equipment. Consult a qualified instructor before attempting any new activity or skill. This equipment must be used with proper mats, spotting equipment and qualified spotters for each activity or skill. Use this equipment only for its intended purpose. Do not modify equipment in any way. Inspect each component for damage, loose fittings or signs of wear before each use. Do not use if you have any concern as to the condition of this equipment. Test unit for stability prior to each use. Do not use if you have any concern about the stability, condition or suitability of this equipment. Inspect warning labels and replace when marred or damaged. Before each subsequent use, re-check equipment stability and settings.

4. Attach units to one another using 3" deck screws. Predrilled connection holes are located between third & fourth rungs and between ninth & tenth rungs.
5. Hold stall bar unit(s) in place against wall and insert lag screws through washers and then mounting holes into anchors. Turn screws a few turns and recheck vertical alignment with level.
6. When unit is precisely level, fully tighten all lag screws with socket driver.
7. **TEST UNIT FOR STABILITY BEFORE EACH USE.**

IMPORTANT!

HANGING OR SWINGING ON STALL BAR UNITS MAY RESULT IN SEVERE INJURY OR DEATH.
